

Lightpaper Version 0.56

Last Updated: 1 May 2024

# Abstract

Humanity has been grappling with the question of our reason for existence for thousands of years, and the past, present, and future remain elusive concepts that continue to puzzle us. Throughout history, from the Chinese, Sumerians, the Maya, Egyptians, Romans to the Greeks, each empire, race, historians, and geniuses of each generation have written their understandings into different forms of writings like books, scriptures, and stories; all of which to provide understanding to the meaning of life. Each generation had its own ideas about the origin, purpose, and significance of life, and these branches of philosophies have evolved alongside the development of technologies.

"The unexamined life is not worth living," as Socrates once said, underscores the importance of self-reflection and understanding in human existence. With this wisdom in mind, we have developed YOUAI, a generative artificial intelligence aiming to understand and provide interpretation of the past, present and future of all aspects of life.

YOUAI provides capabilities for third parties to connect. YOUAI consists of the following technologies:

1. The Grandmaster: Machine Learning, Artificial Intelligence, Multi-Language Processor, Vision and Recognition, powering all Metaphysics - Physical cosmology, Ontology cosmology, Philosophical cosmology and more.
2. The Akashic Records: Largest knowledge base of philosophies, metaphysics databases and algorithms as well as classification and recognition of all kinds of living/non-living forms, images and videos.
3. The Manifesto: Governance with Blockchain and Smart Contracts
4. The Eon: Open and transparent understanding the past and present and predicting the future of all aspects of life with generative AI.

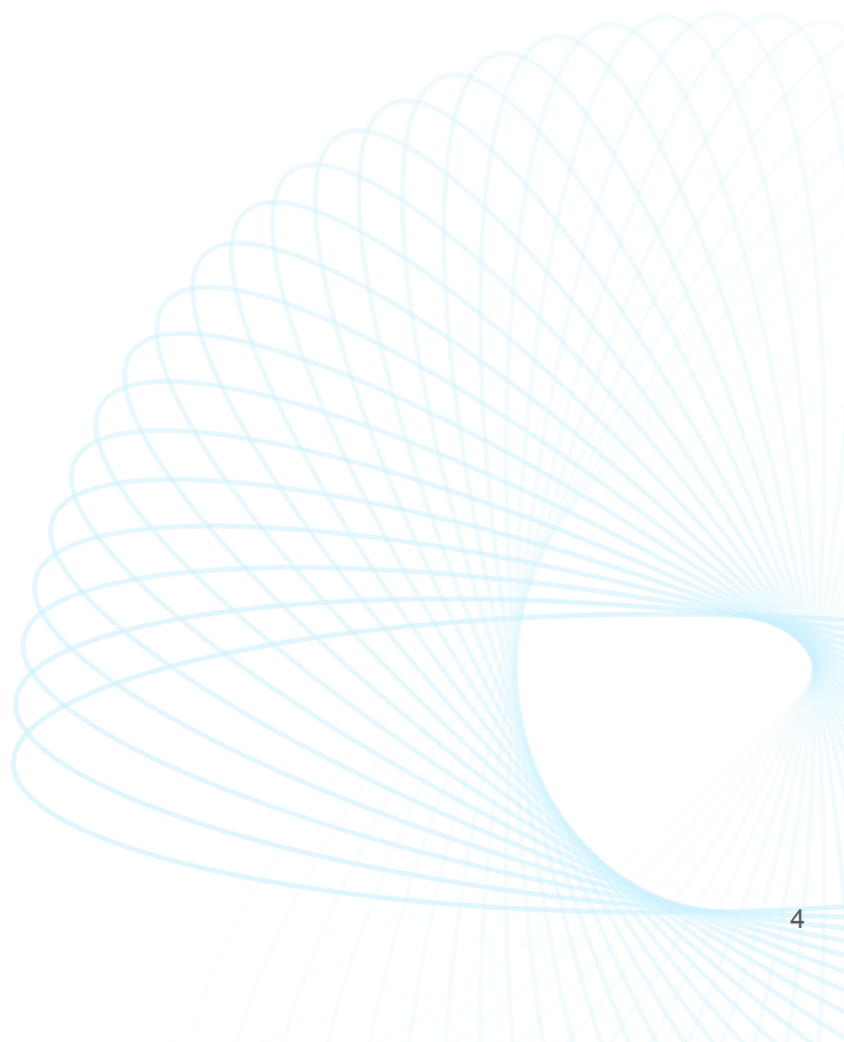

"A journey of a thousand miles begins with a single step." - Lao Tzu

# Introduction

## Problems

1. The field of metaphysics has a rich history and a vast array of information from various sources, including philosophers, grandmasters, ancient books, scriptures, and online materials. There are also multiple schools of thoughts and interpretations. There is a lack of a comprehensive digital database system and a formal review process for evaluating metaphysical theories, which can lead to the dissemination of misinformation, unsubstantiated claims and diverging paths. To address these problems, an extensive database and review system can be established. This system would include a comprehensive database of metaphysical theories, concepts, algorithms, and results, as well as a review process to evaluate the quality of the information. The review process would involve real feedback from experts and users. YOUAI's collection of databases and algorithms of metaphysics will provide the opportunity to solve and interpret Humanity's past, present, and future. When faced with decisions that can shape our lives for years to come - like signing a contract with an overseas multinational company and relocating from our hometown for an extended period—individuals often lack sufficient information to make informed choices. YOUAI steps in to bridge this gap. By leveraging metaphysics, YOUAI can provide predictions and generate potential outcomes tailored to showcase the results of such decisions.
2. The abundance of social media content has led to a situation where users are often passive consumers rather than active participants in their own lives. This can result in a lack of self-belief and understanding of oneself, as individuals are not given the opportunity to develop these beliefs and skills through practical experience. Furthermore, the digital environment can create a sense of disconnection, making it difficult for users to establish a sense of self that is grounded. YOUAI can provide metaphysical answers for their doubts, suggest recommended actions to take, empower the user to make decisions and understand themselves thoroughly.
3. Traditional matching apps that rely solely on physical appearance and CV can lead to mismatches for employment and business partnership or dating. For employment and business partnerships, recruiters often have to interview tens if not hundreds of people to find a suitable match for the company's culture. YOUAI can use established philosophies including metaphysics, leadership, character and personality assessments to provide the best insights into a person's personality, interests, values, and more to find the most compatible match. For dating, people may be attracted to someone's looks but find that they have little in common or struggle to communicate effectively. This can result in a disappointing or frustrating dating experience that can be very time-consuming.

3. Metaphysics practitioners may unknowingly use inaccurate tools or are prone to mistakes when calculating latitude and longitude, lunar time, real solar time, true north, sexagenary cycles, and more, resulting in inaccurate readings and thus, inaccurate results. By having YOUAI, we can ensure accuracy in all mathematical and scientific solutions for all practitioners across all schools of thoughts.
4. In today's fast-paced and interconnected world, individuals often find themselves grappling with a multitude of challenges that can range from managing busy schedules and balancing work-life commitments to coping with stress and maintaining mental well-being. Amidst the constant influx of information and ever-evolving demands of modern life, it's easy to feel overwhelmed and unsure about the best course of action. YOUAI can help analyse your habits and current data in the world around you and provide the best course of recommendations as a companion and personal assistant.

# The Solution: YOUAI (友爱)

Welcome to the enchanting universe of YOUAI, where we're pushing the boundaries of AI with our four main supporting technologies: the Grandmaster, the Akashic Records, the Manifesto, and the Eon.

## The Grandmaster

The Grandmaster combines the top AI and machine learning technologies from the biggest AI companies, including OpenAI's GPT, xAI's Grok, Google's Gemini, Meta's Llama and open source. With all the data and algorithms that the Akashic Records supplies, the Grandmaster can provide answers to leadership, personality, character and metaphysical questions, making it a comprehensive data, language, and image interpreter and generator.

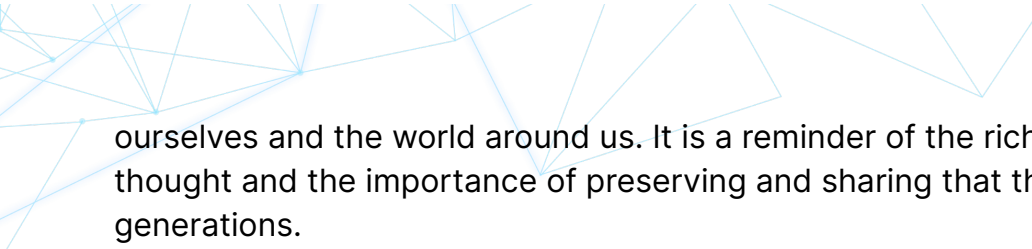

The Grandmaster's AI technology and constant model training with Metaphysics (consisting Physical cosmology, Bigbang cosmology, Religious cosmology, Ontology cosmology, Philosophical cosmology and more) of Grandmasters allows it to weigh, value, analyse and fact check vast amounts of data and provide insights that are not easily accessible through traditional methods. It can process complex metaphysical concepts and provide readings that are accurate, insightful and layman. By combining the strengths of multiple AI, training models and language processing technologies, the Grandmaster is able to offer a more comprehensive and reliable service than any single AI solution could provide on its own.

The Grandmaster's capabilities extend beyond just providing answers to metaphysical questions. It can also generate new ideas and concepts, helping users to explore new perspectives and gain a deeper understanding of the world around them, including in-depth knowledge of themselves.

## The Akashic Records

The Akashic Records is a vast collection of data from various sources, including books, scriptures, the internet, and teachings from grandmasters. As more and more masters use YOUAI, they contribute to its growth, making it one of the largest knowledge bases of metaphysics databases. Hosted on the largest cloud providers and on various Blockchains, the Akashic Records uses multiple forms of database formats for its Big Data, including document, relational, machine learning modelled and embedding databases. It is designed to run globally on the cloud and is constantly updated and expanded with new information. It prevents data from being corrupted or destroyed by usurpers and tyrants of history.

The Akashic Records is a testament to the power of collective knowledge and the wisdom of the ages. It is a reflection of the human quest for understanding and the desire to share that understanding with others. The data in the Akashic Records is a treasure trove of philosophical, spiritual, and intellectual insights that can help us better understand

ourselves and the world around us. It is a reminder of the richness and diversity of human thought and the importance of preserving and sharing that thought for future generations.

The Akashic Records is not just a collection of data, but a living, breathing entity that grows and evolves with each new contribution. It is a symbol of the power of community and the importance of sharing knowledge and wisdom. It is a reminder that we are all connected and that we all have something valuable to contribute to the greater good.

## The Manifesto

The Manifesto is the governing committee of YOUAI which operates a set of governance with blockchain smart contracts. Initial Manifesto members include the founding team. We believe that ethics should be based on karma, or the idea that one's actions have consequences. In this system, the committee's decisions will be guided by the principle of doing good for the world. This means that decisions will be made with the long-term interests of the world in mind.

The Manifesto aims to:

- Find the answers for the past, present and future of humanity.
- Be at the bleeding edge of technology while doing what is good.
- Use science and data to make informed decisions.
- Maintain stability and ensure long-term sustainability of the ecosystem.

## The Eon

The Eon is an Oracle and Generative AI that provides an open and transparent understanding of the past and present and predicting the future of all aspects of life with generative AI. It takes into account the user's habits, interests, familiar bonds, friendships, location, and all kinds of data to make the most optimal predictions of images, text, and other forms of content. The Eon is encrypted with blockchain technology for private use with YOUAI and can be allowed access for third-party usage when necessary. With more users, the Eon will be able to make predictions about populations which can be impactful for economies, population growth plans and more.

Together, these technologies empower YOUAI to provide a unique and enriching experience, helping you explore the depths of metaphysics and gain a deeper understanding of yourself and the world around you. So, prepare to embark on a journey beyond the boundaries of traditional tokens, as we introduce you to YOUAI - not only a Grandmaster of all metaphysics but also a helper of all things.

# Technical Overview

## Database and Cloud Technology

YOUAI uses Single store, a SQL database, to handle high concurrency metaphysics queries. It is also responsible for machine learning and real-time analytics data queries. In contrast, MongoDB, a highly efficient NoSQL database, is used for storing and managing user-generated data. The databases are held in auto-scaling cloud infrastructures with fail-safe redundancies to ensure high availability and reliability.

The use of cloud computing in YOUAI is crucial for its scalability, flexibility, and cost-effectiveness. YOUAI is hosted on multiple cloud platforms, including Google Cloud, Amazon AWS, Microsoft Azure, and Alibaba Cloud. This allows for seamless integration and accessibility across multiple regions.

Cloud computing enables YOUAI to process large amounts of data faster and more securely. It also provides access to Cloud-based applications and services, such as PyTorch, Scikit-learn, Google Cloud AI Platform, Google Cloud Vision API, Amazon SageMaker, Amazon Rekognition, Microsoft Azure Cognitive Services, Microsoft Azure Machine Learning. These tools help design, build, train, manage, deploy, and monitor models with features like auto-scaling, versioning, logging and also help implement functionalities like image recognition, face detection, or sentiment analysis..

## AI and Machine Learning

YOUAI uses a combination of GPT, Gemini, and Llama2 for its language interpretation and output.

In addition to these language models and the Cloud Applications mentioned above, YOUAI also utilises Tensorflow for building and training machine learning models, including image and video recognition models.

Grandmasters and users of YOUAI provide metaphysics prompts and answers, which are used to train the AI via machine learning algorithms in many forms of languages. The use of these advanced AI models and machine learning algorithms allows YOUAI to provide accurate and relevant responses to a wide range of prompts, making it a versatile and powerful tool for a variety of applications in the space of Metaphysics and more.

## Metaphysics API

The Metaphysics API allows users to submit metaphysical queries and receive responses generated by the Grandmaster of YOUAI. It can be accessed through a RESTful interface, allowing users to interact with the AI using HTTPS requests. The vast collection of metaphysical data stored in the Akashic Records can allow the API to search, filter, and retrieve information from the database using a variety of query parameters.

# YOUAI Token

The YOUAI Token is a crucial component of the YOUAI, serving as a means of interaction and participation for users and the main form of governance of the YOUAI Manifesto. The YOUAI Token is built on the Optimism Protocol, a scalable and secure layer 2 solution that enables fast and low-cost transactions.

The YOUAI Token has multiple utility uses and notable features:

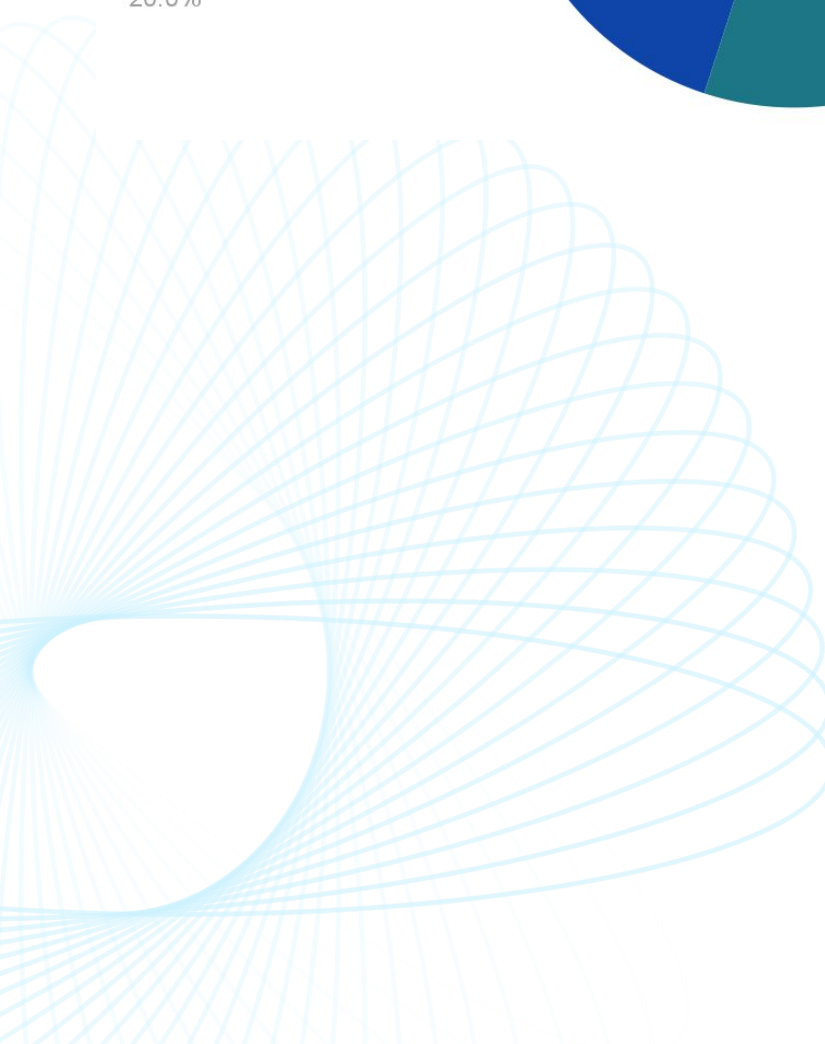

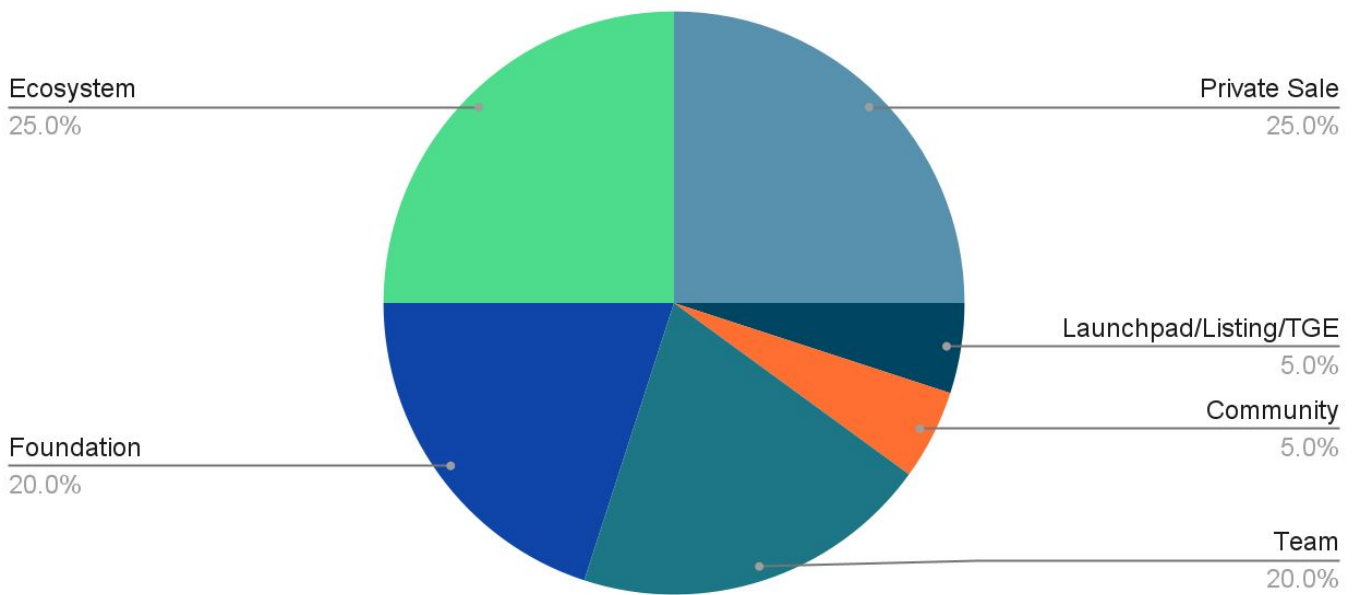

- **Generative AI:** YOUAI Tokens can be used to generate predictive images, text, mixed content, and customised results for the future.
- **Voting:** Token holders can use their tokens to participate in the decision-making process of the YOUAI community. This includes voting on proposals, changes to the platform, and other important matters that affect the direction of the project.
- **Staking:** Users can stake their tokens to earn real world rewards and privileges with partnered YouApp (read more about YouApp in Use Cases) which includes: YouApp exclusives, YOU+ subscription, REN Tiers, daily readings, and more; incentivizing long-term commitment to YOUAI and promoting active participation.
- **Gating:** Token holders can access exclusive features, services, or content within the YOUAI ecosystem by holding a certain amount of tokens.
- **3rd Party Use:** We encourage 3rd party developers to use the YOUAI API together with YOUAI Token for their built purpose. Creating new and interesting ways to build platforms, marketplaces, games, other projects, DAOs, etc.
- **API:** YOUAI Token can be used to access the YOUAI's API, providing a vast collection of metaphysical data, accurate, insightful, and reliable metaphysical answers, suggestions, and predictions.
- **Burning:** YOUAI Tokens utilised when accessing the Grandmaster are burnt upon use, giving energy back to the universe.

# Tokenomics

## YOUAI Token Allocation

<b>Token Supply Hard Cap</b>	The Token Supply is 80,000,000,000 YOUAI Tokens.
<b>Burning</b>	YOUAI Tokens are required to function and are burnt upon use. Usages include generating results, praying, asking for blessings, sending blessings and more.

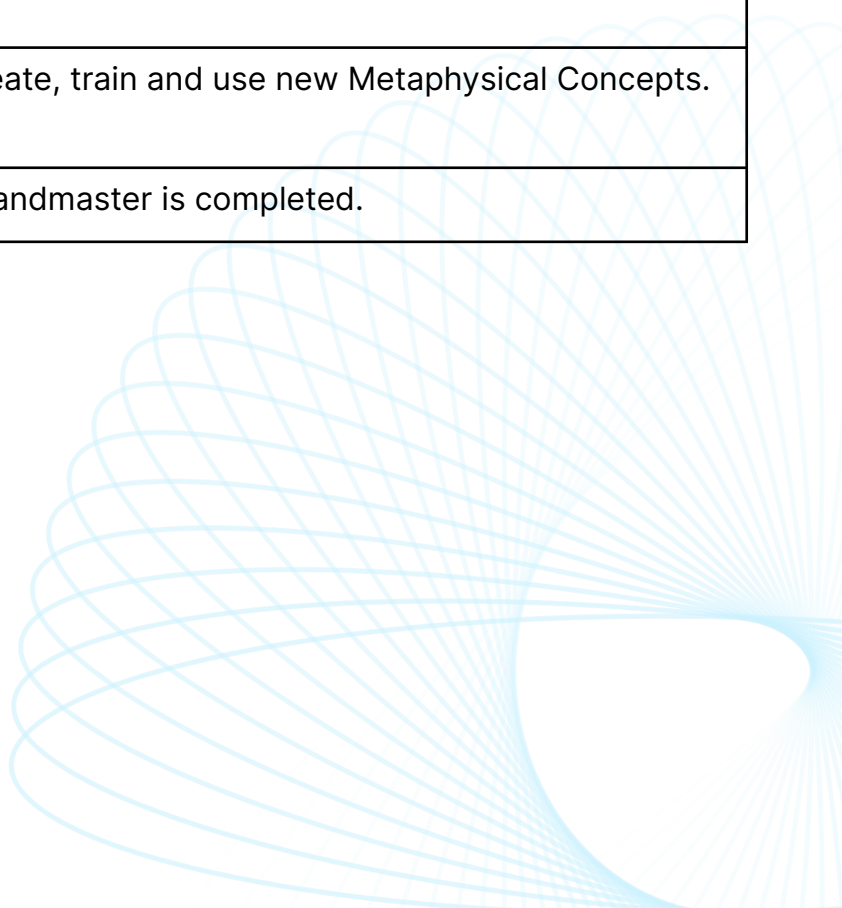

# YOUAI's Roadmap

Here are the long term goals for YOUAI and its Token:

- Make YOUAI Token the foremost utility asset for Metaphysics information in the world.
- Education about Metaphysics for Self Discovery.
- Provide answers to humanity's past, present and future.
- Open, transparent and decentralised use of YOUAI's token, tools, brand and beliefs.

H1 2024	YOUAI empowering YouApp.ai's Metaphysics on Android and iOS
	YOUAI Token TGE, Private Sale
	YOUAI Listing on DEX
H2 2024	Metaphysics API and Widgets for Web3
H1 2025	Metaphysics API for Dating, YouCV and Jobs, Social, Advertising, Ecommerce, Travel. AI Calculators and Tools for Metaphysics.
H2 2025	YOUAI Personal Companion. Adding all the metaphysics philosophies into YOUAI's Akashic Records
H1 2026	YOUAI Bot for anyone to create, train and use new Metaphysical Concepts. The EON is completed.
H2 2026	YOUAI Predictions - The Grandmaster is completed.

# Use Cases

## **YOUAI powers YouApp.ai**

YouApp.ai is a metaphysics app for matching and experiences based in South East Asia. Through YouApp, individuals gain access to a diverse range of features, including daily assessments of their love, career, wealth, and health statuses. Additionally, users receive personalised recommendations such as auspicious clothing, accessories, food choices, lucky colour, as well as lucky number for the day. Moreover, YouApp facilitates meaningful connections by enabling users to match with others based on compatibility scores derived from various belief systems, including BaZi, Numerology, Horoscope, Zodiac signs, and many more.

## Metaphysics API Features

- **Generative AI**

Through intricate algorithms and predictive analysis, YOUAI can envisage not only the potentialities of your career and business endeavours but also the dynamics of your relationships, family, and progeny.

YOUAI can create a text, picture or video of your spouse's and children's appearances, personalities, and destinies, all intricately woven with metaphysical data. From the successes and challenges of your professional journey to the joys and trials of parenthood, YOUAI provides a holistic outlook, offering insights into the paths you, your loved ones, friends, work mates, business partners may traverse.

- **Companionship/Personal Assistant**

YOU can be your personal assistant attuned to your every need and desire. YOUAI is not just a tool; it's a guide, educator, and ally, empowering you to navigate life's complexities with confidence and clarity. From mastering the art of love to ensuring you never miss a deadline, birthday or important dates, YOUAI seamlessly integrates into your daily routine for business and relationships.

- **Self Discovery**

Utilising YOUAI's Self Discovery feature, users embark on a journey of self-exploration and introspection. Through tailored algorithms and personalised insights, individuals gain a deeper understanding of their personality traits, strengths, weaknesses, and potential avenues for growth.

- **Compatibility**

With YOUAI's Compatibility feature, users can delve into the dynamics of their relationships, whether romantic, professional, or platonic. By analysing various metaphysical factors, the API provides comprehensive compatibility assessments, helping individuals navigate their interactions with others more effectively regardless whether it is at the workplace or at home or for relationships.

- **Divination and Luck**

Empowering users with a glimpse into the mystical realm, YOUAI's Divination feature offers tools for exploring the unseen forces shaping their lives. From tarot and I Ching readings to numerology lucky numbers and astrological forecasts, the API delivers personalised divination experiences tailored to each user's unique circumstances and inquiries, including business-related insights. Additionally, the API can provide luck analysis to enable third-party developers and decentralised platforms to utilise, which includes but is not limited to providing supportive AI mascots for gaming and trading purposes.

- **Metaphysics Calculator and Results Interpretation**

Through the Metaphysics Calculator and Results Interpretation capabilities of YOUAI, users receive accurate calculations and insightful interpretations of metaphysical data. Whether deciphering the significance of numerological patterns or unravelling the symbolism embedded within dreams, the API equips users with the tools they need to unravel life's mysteries and make informed decisions.

- **HR and Recruitment**

Through in-depth analysis of users, companies can recruit individuals via personality and metaphysical readings who are suitable for their company's roles and growth trajectory, thereby saving significant time and money. The API enables Job Portals, HR departments, and other staffing tools to decipher their existing and new talents, placing them in roles, jobs, and responsibilities suitable for them.

- **Ecommerce**

Seamlessly blending the realms of fashion and metaphysics, YOUAI collaborates with YouApp to revolutionise commerce advertising. Our innovative platform harnesses the insights of YOUAI to identify trending products and styles, ensuring advertisers can effortlessly align their offerings with each user's unique preferences, aspirations, and metaphysical inclinations.

Picture this: You have an important interview lined up, and you're eager to make a lasting impression. With YouApp's powerful integration of YOUAI, fret no more about what to wear. Our advanced algorithms analyse your metaphysical profile and aspirations, seamlessly guiding you towards the perfect attire for success. Whether it's projecting confidence, professionalism, or charm, YouApp ensures that every outfit recommendation is tailored to your individual needs, setting you up for success in every endeavour. It is a journey where fashion meets destiny, and every outfit choice becomes a manifestation of your highest potential and unique journey.

- **Travel**

YOUAI can provide recommendations for hotels, flights and experiences for all kinds of purposes. Whether it's planning a productive business trip, a rejuvenating getaway, or a romantic escapade, YOUAI analyses the user's interests and metaphysical factors such as astrological alignments, numerological influences, and energy flow to suggest destinations and auspicious dates that resonate with an individual's intentions, desires and needs.
